1. Course Description:

ISO/IEC 27005 Foundation training course enables the participants understand the fundamental concepts and principles of information security risk management based on ISO/IEC 27005.

By attending this training course, participants will learn more about the structure of the standard including information security risk assessment, treatment, acceptance, communication and consultation, and monitoring and review. They will also gain basic knowledge related to information security risk management based on other standards such as ISO/IEC 27001 and ISO 31000.

After attending the training course, you can sit for the exam and, if you successfully pass it, you can apply for a “PECB Certified ISO/IEC 27005 Foundation” credential. A PECB Foundation certificate shows that you have knowledge on the fundamental concepts, principles, methodologies, processes, and management approaches used in information security risk management.

2. Audience:

- Individuals involved in information security risk management
- Individuals seeking to gain knowledge about the main processes of information security risk management
- Individuals interested in pursuing a career in information security risk management

3. Learning Objectives:

- Understand the basic concepts of information security risk management
- Acknowledge the correlation between ISO/IEC 27005, ISO 31000, ISO/IEC 27001, and other standards and regulatory frameworks
- Understand the approaches, methods, and techniques used for the management of information security risks

4. Benefits of Taking This Course:

- Understanding how to deal with security risk management
- Formal and independent recognition of personal competencies

5. Prerequisites:

None

6. Course Materials:

You will receive the following as part of this course:

- A copy of the classroom presentation material
- A study handbook containing information and practical examples

7. About the Examination:

The “PECB Certified ISO/IEC 27005 Foundation” exam complies with the PECB Examination and Certification Programme (ECP) requirements. The exam covers the following competency domains:

- **Domain 1:** Fundamental concepts of information security risk management
